## Letter dated 19 May 2017 from the Permanent Representative of Cyprus to the United Nations addressed to the Secretary-General

Upon instruction from my Government, I transmit herewith two documents detailing the infringements of international air traffic regulations and violations of the national airspace of the Republic of Cyprus by Turkey (see annex I) and the illegal use of closed ports by Turkish warships (see annex II) during the month of March 2017. It should also be noted that Turkish commercial aircraft systematically use the illegal airport of Tympou.

Furthermore, I wish to inform you that the occupation regime illegally issued four notices to airmen relating to exercises conducted by the Turkish Air Force in March 2017.

In addition, more recently the occupation regime has started interfering with radio frequencies, including distress and emergency frequencies, of the Republic of Cyprus, thus obstructing the smooth operation of the NAVTEX service that delivers navigational and meteorological warnings and forecasts, as well as urgent maritime safety information, to ships.

The actions of Turkey are clearly aimed at undermining the sovereignty of the Republic of Cyprus, bolstering the continuing de facto division and upgrading the secessionist entity's status, by claiming a purported airspace over the occupied territory of the Republic. In addition, Turkey continues to systematically harass civilian and military aircraft within the Nicosia flight information region (FIR) via radio calls. Meanwhile, Nicosia FIR infringements of regulations and violations of the national airspace of the Republic of Cyprus continue unabated. Turkey's policy of persistently breaching international law and defying international rules and regulations puts the safety of international civil aviation at risk, has a negative impact on the stability of the region and causes difficulties for air traffic over Cyprus.

It should further be underlined that the continuation of Turkey's illegal actions creates tension during a critical period for the successful outcome of the ongoing negotiation process for a peaceful comprehensive solution to the Cyprus problem.

On behalf of my Government, I strongly protest the continuing infringements of international air traffic regulations and the violations of the national airspace and the territorial waters of the Republic of Cyprus by Turkey and appeal for their immediate cessation. The Republic of Cyprus reiterates, in this respect, its call for adherence to the principle of sovereignty and non-interference enshrined in the Charter of the United Nations.

I should be grateful if you would circulate the present letter and its annexes as a document of the General Assembly, under agenda item 41, and of the Security Council.

## Letter dated 24 May 2017 from the Permanent Representative of the Democratic People's Republic of Korea to the United Nations addressed to the Secretary-General

I have the honour to enclose herewith the answers of the spokesperson for the Ministry of Foreign Affairs of the Democratic People's Republic of Korea (DPRK) given to the questions raised by the Korean Central News Agency (KCNA) on 23 May 2017 with regard to the DPRK's test-launch of the strategic ballistic missile Pukguksong-2 (see annex I), and the service of the Rajin-Vladivostok international tourist liner (see annex II).

I should be grateful if you would have the present letter and its annexes circulated as a document of the General Assembly, under agenda items 17 and 61, and of the Security Council.

## Annex I to the letter dated 24 May 2017 from the Permanent Representative of the Democratic People's Republic of Korea to the United Nations addressed to the Secretary-General

## Answer of the spokesperson for the Ministry of Foreign Affairs of the Democratic People's Republic of Korea to the questions raised by KCNA on 23 May 2017 with regard to the test-launch of the strategic ballistic missile Pukguksong-2

The officials in the field of national defence science and technology and the workers in the munitions field of the DPRK successfully carried out the test-launch of ground-to-ground medium- to long-range strategic ballistic missile Pukguksong-2 amid continued measures for bolstering the nuclear force of the country.

As reported, the recent launch aimed to finally confirm the technical specifications of the overall weaponry system of the Pukguksong-2 series and fully examine their adaptability to various combat conditions before their deployment for action.

This is part of the normal process for bolstering the military capabilities for self-defence and a process that has to be gone through for deployment.

But the U.S. and its followers again published a Security Council press statement peppered with rhetoric such as "sanctions" and "denunciation".

We flatly reject the press statement taking advantage of the U.S. hostile policy toward the DPRK.

Nothing favourable can be expected from the U.S. and its followers obsessed by inveterate repugnancy and hostility towards the DPRK. But it is absolutely ridiculous to see them finding fault with the DPRK's every measure for self-defence.

The DPRK substantially displayed the capabilities for mounting a nuclear attack at Hawaii, housing the U.S. Pacific forces command and the Pacific operational theatre, including Alaska, and has built full capabilities for attacking the U.S. mainland, the stronghold of aggression.

The U.S. and its followers' despicable act of taking issue with the DPRK's measures for bolstering nuclear force will only result in increasing our hostility to them and furthering the efforts to diversify and modernize our own nuclear force.

## Annex II to the letter dated 24 May 2017 from the Permanent Representative of the Democratic People's Republic of Korea to the United Nations addressed to the Secretary-General

## Answer of the spokesperson for the Ministry of Foreign Affairs of the Democratic People's Republic of Korea to the questions raised by KCNA on 23 May 2017 with regard to the service of the Rajin-Vladivostok international tourist liner

The Rajin-Vladivostok international tourist liner "Mangyongbong" has recently begun its service.

Its regular operation under an agreement between the DPRK and Russia will be able to contribute to developing bilateral cooperation in such economic fields as sea transport and tourism.

This is normal bilateral cooperation work aimed at expanding the bilateral economic relations and deepening the friendship through humanitarian exchanges and visits.

However, the U.S., running amok to ratchet up sanctions against the DPRK, faulted even the service of the liner, a normal economic cooperation undertaking between the two sovereign States, with mobilization of its vassal forces, in a bid to prevent the DPRK-Russia economic cooperation and suffocate the DPRK through a tightened economic blockade.

Such action is arousing a strong backlash and rejection from Russia as it is an arbitrary practice, seriously encroaching on the legal interests of not only the DPRK, but also of Russia.

No matter what others may say, the DPRK-Russia economic cooperation, including the service of the liner, will steadily develop in keeping with the desire and common interests of the two peoples.

## Annex to the identical letters dated 23 May 2017 from the Permanent Representative of Georgia to the United Nations addressed to the Secretary-General and the President of the Security Council

### Statement by the Ministry of Foreign Affairs of Georgia on the signing of a so-called agreement between the Russian Federation and its occupation regime in Sokhumi on the creation of joint information-coordination centre

The Ministry of Foreign Affairs of Georgia condemns the signing of a so-called agreement between the Russian Federation and its occupation regime in Sokhumi on "the rules of establishment and functioning of the joint information-coordination centre of agencies for internal affairs" that took place on 18 May 2017.

Creation by the Russian Federation of a so-called joint group of armed forces in the Abkhazia region, now followed by the merger of law enforcement and investigative bodies, which were envisaged by the 2014 so-called treaty on alliance and strategic partnership, represent clear proof of a factual annexation process of the occupied region.

The so-called agreement totally disregards fundamental principles and norms of international law such as sovereignty, territorial integrity and inviolability of internationally recognized borders. This is an intentional step taken by the Russian Federation to undermine the peace policy of the Georgian Government, supported by the international community. Such kind of actions contribute to destabilization of the situation in the region and harm the Geneva international discussions.

Ongoing illegal processes in the occupied territories of Georgia vividly demonstrate the need for firm and consolidated international efforts. We appeal to the international community to take effective measures aimed at de-occupation and prevention of the annexation of Georgia's occupied regions.

## Programme budget implications of draft resolution A/71/L.66

## Report of the Fifth Committee

*Rapporteur:* Ms. Diana Minyi **Lee** (Singapore)

1. At its 36th and 37th meetings, on 25 May and 2 June 2017, the Fifth Committee, pursuant to rule 153 of the rules of procedure of the General Assembly, considered the statement submitted by the Secretary-General on the programme budget implications of draft resolution A/71/L.66 (A/C.5/71/22). At the 36th meeting, the Vice-Chair of the Advisory Committee on Administrative and Budgetary Questions introduced the related report of that Committee (A/71/912). The draft decision submitted by the Chair following informal consultations coordinated by the representative of Kenya (A/C.5/71/L.32) was before the Committee (see para. 3).

2. The statements and comments made in the course of the Fifth Committee's consideration of this question are reflected in the relevant summary records.[1]
